REMARKS

Claims 1-11 are pending in this application.

Claims 1 to 11 are subject to a restriction requirement under 35 USC 121 to elect a single disclosed species for prosecution.

Claims 1-6 and 8-11 are said to be drawn to a polarization dependent polarizer for depolarizing two linear orthogonally polarized beams of light. - Invention I

Claim 7 is said to be drawn to a polarization dependent depolarizer wherein a high order depolarizing waveplate is defined. - Invention II

The applicant hereby elects invention I defined by claims 1-6 and 8-11.

It should be noted that claim 7 should have been made dependent on claim 3 as it would otherwise lack antecedent basis for the wording "the polarization dependent depolarizer, wherein said high-order depolarizing 45° waveplate".

Claim 7 has been amended to now depend from claim 3 and is believed to fall under invention I. Therefore, the applicant respectfully requests that claims 1-6, amended claim 7 and claims 8-11 be considered if generic claim 1 is allowable.

The Office Action further indicates that claims 2, 4, 6 and 8-11 relate to species 1 and claims 3 and 5 relate to species 2.

Accordingly, Applicant hereby elects species 1. Applicant believes that claims 2, 4, 6, and 8 to 11 are readable thereon.

It is understood that if claims 2, 4, 6, and 8-11 are deemed patentable, claims 3, 5, and 7 will be considered with respect to their patentability.

In view of the foregoing remarks and amendments to the claims, it is respectfully submitted that the instant application is now in condition for allowance.

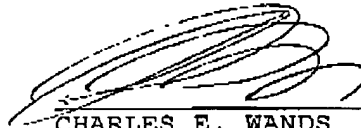

Early and favorable reconsideration of the Examiner's objections would be appreciated.
